## Kiss and Make-Up

With

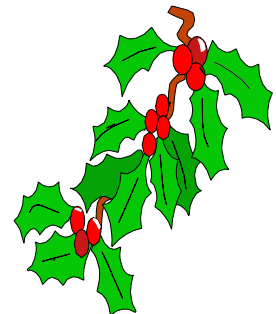

Dermal fillers are designed to soften facial lines and grooves by filling in wrinkles and folds, such as the “smile” lines and marionette lines around the mouth, or to restore fullness to the lips or cheeks. Facial filler procedures are done right in the office and help create an overall softer, rejuvenated look and less-stressed appearance.

**JuveDerm™**, brought to us by Allergan-the makers of Botox®, is the latest FDA-approved injectable dermal filler gel. It safely smoothes out facial wrinkles and folds by adding support structure and volume. You can expect instant, long-lasting, natural-looking results with *little or no down time*.

**Receive a free “Kiss & Make-up” kit with your JuveDerm™ purchase.**

(contains celebrity make-up artist Scott Barnes Cream Concealer, Lip Slick and Body Bling Lotion)

While supplies last 11/1/07-12/31/07.  
Quantities are limited.
